Dear Ms Ámon and Mr Jávör,

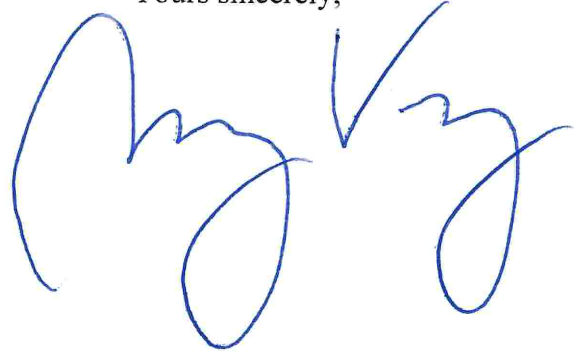

Thank you very much for your letter and the information Energiaklub provided in the context of our State aid investigation.

The concerns you have raised in your complaint were forwarded to Hungary and are part of the investigation the Commission is carrying out now.

Hungary has formally notified the measure on 22 May 2015. Energiaklub is very welcome to send in additional information, which will be taken into account.

Once the information the Commission needs from Hungary is complete, the Commission will have two months to decide whether or not the notified measure raises doubts about its compliance with EU State aid rules.

Yours sincerely,

Mr Benedek Jávör
